Currency Deposit Interest Rate Charges

Currency Deposit Rate Charges	Rate Below Balance Threshold	Currency Balance Threshold	Rate Above Balance Threshold
CHF	1.5000 %	0	1.5000 %
JPY	0.4000 %	100,000,000	0.6500 %

*Service Charge includes trade confirmation and postage and handling fee and a profit to the firm and may be increased to also include clearing costs and any applicable exchange or transaction fees.

**You may be charged a fee of \$25.00 on any non-fee based account that has no trading activity in a 12 month period

*** Annual Account Maintenance Fees may be higher at the direction of some financial advisor affiliates of Bolton Global and the affiliates receive a portion of these higher maintenance fees.

****Additional custody fees may apply for non-US market securities

*****Surcharge may vary.

† These fees include a Bolton mark-up that is a source of compensation to Bolton and intended, in part, to offset the costs associated with servicing your account. While Bolton supports the cost of operations to process client transactions, these mark ups may exceed the actual cost of processing a transaction subject to a mark-up.

†† Service fee assessed to client account for recording and settling trades transacted away from Bolton Global Capital's fixed income desk

Includes Pershing's Non-US Annual Account fee instituted in 2022

Fixed Income Trading in Non-Wrap Fee Advisory Accounts

If you transact in fixed income instruments in your non-wrap fee based advisory account, you will bear administrative transaction charges for purchases, sales and exchanges in your Account. Bolton Global Capital will act as agent on your behalf when you transact in fixed income instruments and will not also represent the person or entity on the other side of the transaction. Any fixed income trading in your account conducted at Bolton Global Capital will be done on an agency basis only and not as an agency cross transaction. (See Item 11 of BGAM's Form ADV Part II for a further explanation of agency cross transactions at <https://boltonglobal.com/doc/BGAM-FORM-ADV-PART-II.pdf>) You have authorized Bolton Global Capital to deduct from your Account the transaction charges and other fees applicable to your Account. The transaction charges are paid to Bolton Global Capital to defray costs associated with trade execution; however, these are not directly and proportionately related to transaction-related expenses of Bolton Global Capital and are a source of revenue to Bolton Global Capital for the trading services provided. The maximum administrative transaction charges for each fixed income instrument transaction are the greater of \$50.00 or 10 basis points (.10% of principal). For Treasury Bills and Notes, the maximum charge is \$25 or 2 basis points (.02% of principal), value whichever is greater. The transaction charges are applied by Bolton Global Capital and are not directly shared with BGAM or shared with its IARs. Bolton Global Capital and BGAM are separate legal and operating entities. However, because Bolton Global Capital and BGAM operate under a common control and ownership structure, BGAM will indirectly benefit from any fees, commissions or transactions charges that are paid to Bolton Global Capital. The administrative transaction charges are in excess of your advisory fees paid to BGAM and are subject to reduction at the discretion of the Bolton trading desk. Because of these practices and/or in certain instances BGAM will be unable to achieve the most favorable execution of client transactions and this practice will result in the client incurring higher costs and paying higher fees. BGAM advisors who are also RR's of Bolton may also charge a commission in the amount adequate and approximated to cover any ticket or transactional fees they are assessed as a result of a trade in your account. For fixed income trades transacted away from Bolton Global Capital's fixed income desk, a service fee equal to 5 basis points (.05%) of the principal shall be assessed to the client account for recording and settling the trades into the account.

Important Conflict Disclosures

Bolton Global Capital will receive a cash incentive from its clearing firm, Pershing LLC, for assets Bolton Global Capital places on the Pershing platform. This includes accounts directed by Bolton Securities Corporation to Bolton Global Capital. In limited situations, Bolton Securities advisors can direct assets to different platforms other than Bolton Global Capital and Pershing LLC, thus the election to custody via Pershing creates a conflict of interest.

Please see important conflict disclosures regarding your account at <https://boltonglobal.com/doc/Brokerage and Advisory Accounts Fee and Conflict Disclosures.pdf>
